

University of Stuttgart

Institute of Cell Biology and Immunology
Allmandring 31

2025

02.10. Dr. Lucilla Fabbri

Institute Curie, France

“Role of mRNA translation in melanoma resistance to targeted therapies”

13.11. Prof. Dr. Jochen Prehn

Royal College of Surgeons in Ireland

“Wer, wo, was - Spatial single cell analysis of tumour biology in colorectal cancer”

2026

15.01. Prof. Dr. Margareta Müller

Furtwangen University

“3D in vitro tissue models for testing of anti-tumor therapeutics”

22.01. Prof. Dr. Jonathan Schmid-Burgk

University of Bonn

“Pooled screening experiments to study the genome, transcriptome and proteome of human cells”

12.02. Dr. Haiyang Yun

Robert Bosch Center for Tumor Diseases

“Transcription in Chaos: How Gene Mutations Fuel Leukemia”

26.02. Dr. Gertraud Orend

Institut d'Hématologie et d'Immunologie, Strasbourg, France

“Targeting tenascin-C in cancer”

12.03. Dr. Romain Levayer

Institut Pasteur, Paris, France

“Toward a predictive understanding of epithelial cell death: from collective effects to single cell decision”

19.03. PD Dr. Dirk Nettelbeck

German Cancer Research Center (DKFZ), Heidelberg

“Engineering Oncolytic Viruses as Multi-Tasking Cancer Therapeutics”

IZI Seminar Series

Winter 24/25

Thursdays, 16h
AR31, Room 0.106
